MANAGEMENT CONTROL AND AUTHORIZATION PROGRAM FOR TABLES OF ALLOWANCE (TA) AND ALLOWANCE SOURCE CODES (ASC) FOR USAF ACTIVITIES

This regulation provides a consolidated index of all USAF miscellaneous ASCs and current TAs. The approved utilization and application of TAs, as reflected in this regulation, is the authority for major commands to authorize, acquire, and account for essential requirements. Approval for use of miscellaneous allowance source codes will be according to AFM 67-1, volume IV, part one.

Section	Page
A--MISCELLANEOUS ALLOWANCE SOURCE CODES (For other than Tables of Allowance).....	1
B--CURRENT/DEVELOPMENTAL/RESCINDED TABLES OF ALLOWANCE.....	3
C--USMILGP AND MAAG SUPPORT - JOINT TABLES OF ALLOWANCE.....	61
D--REFERENCE TABLES OF ALLOWANCE FOR MAP AND FMS CASES.....	67
E--ALPHABETICAL LISTING OF TABLES OF ALLOWANCE SUBJECTS.....	68
F--TRC/TA Assignment.....	88

Supersedes AFIND 10, 1 January 1994

No. of printed pages: 94

Approved by: 653 ABG/CC

Distribution: F

1. When Revisions Are Issued. Revisions of this regulation are issued in January and July.

2. GENERAL INFORMATION:

a. Basic Information. The various categories of TAs are explained in AFM 67-1, volume IV, part 1 chapter 6, which also contains instructions for preparing and submitting proposed new TAs and changes to existing TAs. Other ASC are described in chapter 15 of referenced manual.

b. Classified TAs. If a TA is classified, the classification appears in parentheses following the title. The term "Restricted Data" is included in the parenthetical statement where applicable. The title of TA as given in the regulations is unclassified.

c. Revisions to Allowance Source Codes. An asterisk (*) preceding an entry indicates a change has occurred since the last edition of the index. The change normally relates to the title, Basis of Issue (BOI), date, amendment, or Air Logistic Center assignment. When it is necessary to determine the actual change action, suggest the new issue be compared against the previous issue.

d. Table of Allowance Management Office. Office of primary responsibility having TA assignment is listed for referral of TA matters. See monitor code column within this regulation to

determine specific TA assignment office.

(1) AF Support Equipment Management Office (653 ABG/LGSE): Joint Tables of Allowance (JTAs); HQ AFMC/HC: Chaplain Facility (TA 411); and HQ AFMWRSA: Mortuary (TA 405) Randolph AFB TX.

(2) San Antonio ALC/SWRDE: Special Weapons TA

(3) Reference TAs for Military Assistance Program (MAP) and Foreign Military Sales (FMS) cases: See Activity Monitor Code in section D.

(4) 653 ABG/LGSE: All other TAs in section B and those under development.

e. Rescinded TAs. Rescinded TA numbers ,(ASC), and the reasons for rescission are listed in section B one-time only.

f. Joint Tables of Allowance. The JTAs listed herein are solely prescribed for MAAG or JUSMAG usage and, as such, are limited in distribution. Refer to AR 1-75/OPNAVINST 4900.31/AFR 400-45 for details.

g. Development Tables of Allowance. Development TAs are listed in section B for information only and do not requisition. They may be used for forecasting the requirements when listing is provided by the applicable ALC monitor and when OFADES/DEFADES are established according to AFM 67-1, volume IV, part one. All TAs under

development may not become an official TA publication. If they do, an announcement will be made in the AF Publishing Bulletin.

h. Explanation of Terms. For the purpose of this publication the following terms are explained:

(1) Specific Organizations Allowances for specific organizations apply to those organizations only, even though other organizations may perform similar functions or may be of equal or higher "Management Level." For example, allowances designated to "Headquarters AFSPC" "Strategic Missile Wing" apply to those organizations only and do not apply to any other organization.

(2) Groupings of Organizations. Allowances herein are generic organizations and apply equally to all organizations within their management level groupings.

3. How To Keep The Regulation Current:

a. Programmed and unscheduled moves require that applicable basis of issue be reviewed by the major commands and separate operating agencies to ensure proper and accurate coverage.

b. Changes required should be forwarded to the 653 ABG/LGSE, 375 Perry Street, Robins AFB GA 31098-1863 for review.

4. DISTRIBUTION:

a. Publication Distribution Offices (PDO) submit AF Forms 124, Publications/Forms Requisition, and 764, Publications Requirements, for all Tables of Allowance directly to the Publications Distribution Center (AFPMC). Mailing lists on TAs are maintained by the AFPMC. Due to continuous updating of TAs and AFIND 10, no backup stock is authorized PDOs. The AFPMC maintains requirements, and furnishes labels and lists to monitoring activities upon request and store and issues backup stock.

NOTE: Requirements for Limited Distribution TAs will be submitted directly to 653 ABG/LGSE with justification for validation. 653 ABG/LGSE approves/disapproves requirement, signs form, and returns to requester for their action as stated above. TAs marked Limited Distribution are normally provided to activities directly related to the purpose or function of the TA.

b. Obtaining requirements for new TAs. The monitoring ALC will advise 653 ABG/LGSE, as far in advance as possible, when a new TA (not a revision) is to be developed. 653 ABG/LGSE will request SAF/AAIPDQ to announce the new publication in the AF Publishing Bulletin, part 1, section A, so PDOs can submit their "F" (functional) requirements to the AFPMC. Under no circumstances will a monitoring ALC develop requirements, distribution lists, or labels for a new TA being distributed by "F" requirements.

c. Distribution for TA 001, Master Equipment Management Index and TA 002, Allowance Notice Monthly Update, is controlled by Sacramento ALC (SM-ALC). Requirements will be submitted by the local base PDO on AF Forms 124 and(or) 764 direct to SM-ALC/FMDM, 5022 Bailey Loop, McClellan AFB CA, 95652-1369, with justification and PDO account number. SM-ALC/FMDM will notify the PDO servicing the requisitioning source of approval/disapproval. SM-ALC/FMDM maintains the total distribution requirements. SM-ALC/FMDM retains backup stock and maintains labels for TAs 001 and 002.

d. Distribution of AFIND 10, PDOs submit AF Forms 124 and(or) 764 direct to AF Pub Distr Cen, Baltimore, MD 21220.

e. Distribution of TAs for Security Assistance Program (FMS or Grant Aid) requirements is governed by the procedures contained in AFR 130-1 as applicable. DD Forms 1149, Requisition and Invoice/Shipping Document, requisitioning TAs are forwarded by AFMC ILC/XRPS to HQ USAF/CVAII for review and release.

f. Joint Tables of Allowances (JTAs), formerly numbers 931 through 999, have been converted to a single number system utilizing the Army Table of Allowance numbers, e.g., AFTA 972 is now JTA 75-31. Departments of Army and Air Force maintain a common service agreement for the exchange (free basis) of publications for which there is an initial sporadic or

one-time requirement for a limited quantity. In accordance with the above statement, request for specific JTA may be submitted to Commander, US Army Adjutant General, Publications Center, 2800 Eastern Boulevard, Baltimore, MD 21220. Continuing requirements for JTA should be submitted to 653 ABG/LGSE for inclusion in the AF distribution section JTAs.

g. To avoid depletion of TA stock levels and ensure onhand stock is adequate to fill customer requisitions, stock levels will be established by the AFPDC on the following basis:

INITIAL DISTRIBUTION

<u>QUANTITY</u>	<u>STOCK LEVEL</u>
1-100	20%
101-500	15%
Above 500	10%

NOTE: Should experience gained through receiving and filling requisitions reveal early depletion of stocks or excess stock, the stock level percent factor may be re-adjusted to closely coincide with requisitioning demand. When this is determined, the AFPDC adjusts backup quantity block on AFMC for 842, TA Distribution Instructions, prior to forwarding mailing labels.

h. Non-US Government Agencies may obtain Tables of Allowance by following the procedures contained by AFR 4-33.

5. Application of TAs:

a. Application refers to authorized users and is synonymous with BOI. The BOI appears under the TA title.

TA 006 - Organizational and Administrative Equipment

AF Org except dependent schools overseas

NOTE: Only the organizations cited in the BOI are authorized to use the TA.

b. When the basis of issue is only applicable to a specific part or subdivision of the TA, command base, organization, etc, the BOI normally shows the restriction in parentheses, (Part A) (AETC), (WPAFB), etc.

c. Air Force TAs are applicable to Air National Guard (ANG) units. ANG Units are considered components of the Air Force and the application of Air Force TAs applies equally to Air Force and ANG units. Where the exception exists, specific Air Force TAs will be so noted.

d. Training equipment required to support training courses outlines in AFCAT 36-2223 will be derived from allowance documents of the same functional area or weapon system TA. AFIND 10, section B, must prescribe AETC as a user in the applicable TA. Individual BOI for AETC requirements will be cited in TAs, due to variation in student load, duration of course, and other variable factors which preclude

identification of fixed allowances. The BOI cited for AETC's use is one per instructional group. An instructional group is the maximum number of students that may be trained simultaneously using one set of course related support equipment. The ASC loaded in the Standard Base Supply System (SBSS) will designate the part, section, and subsection of the applicable TA. An alpha O will be placed in the seventh position of the ASC to designate a training requirement.

e. A BOI for an Air Force base, as used in this regulation, refers to Air Force and ANG establishments which include the following activities: administration, maintenance, supply account, and normally includes a landing field with buildings and equipment necessary to maintain and service aircraft/missile. Where an auxiliary field, station, sub-base or other installation not included in above definition of an Air Force base is so located, that it cannot share utilization of equipment with the parent or logistical support base or when the parent base cannot make equipment available from base authorization, such installation may be considered as an Air Force base or authorization of minimum equipment required to perform the assigned mission. The parent command may authorize appropriate EAID changes. A USAF or ANG installation with an assigned mission which necessitates operation as a separate base within an Air Force base may fall within this category when not support by host/tenant agreements. It is the

responsibility of all echelons of the parent commands to ensure that no more than the minimum equipment for which utilization can be justified is obtained through this authorization.

f. Certain TAs listed herein are coded "not Otherwise Authorized (NOA)" or "applicable only when allowances are not provided by system TA." These codes restrict the application of the entire TA to an authorized maintenance function. Accordingly, a maintenance activity is not allowed to obtain allowances of individual line items prescribed when they are not authorized the TAs.

(1) Activities authorized system TAs, such as TA 356 (B-52) which has an Instrument Shop, will not use TA 729 to acquire allowance not covered by the system TA for support of the B-52 aircraft. The only time that TA 729 may be used under this situation is when support equipment used for squadron/wing primary systems are not sufficient to support base assigned aircraft (T-39, T-33, etc).

(2) Activities not operating with system TAs are authorized use of mission support TAs when designated by the BOI.

(3) Basis common shop mission support TAs that may be used to augment system TAs are 403, 455, 460, 480, 737, 738, 739, 762, 763, 772, 783, 788, 831, and 833, when not otherwise restricted by TA

preface or application listed in this regulation.

6. Activity Monitor Code: The activity monitor code column identifies the activity document assignment. A quick reference of TA assignment is shown below, however, check the activity monitor code to ensure assignment has not been changed.

Note: TRC and PDM Allowance Documents applicable to ALCs and listed in Section E, may in some instances bear this same title. To

Distinguish ALC document application, the applicable code letter will be shown in parentheses following the title.

Facilities support Aircraft Maintenance (G) TA 725. The code letter following the TA title identifies the ALC which uses the TA.

Code letters are:

- O - Oklahoma City ALC
- U - Ogden ALC
- C - Sacramento ALC
- T - San Antonio ALC
- G - Warner Robins ALC

7. Reference TAs for MAP and FMS cases. Allowance source codes 931 through 985 and 988 through 998, are reserved for use in the development of reference TAs for

MAP and FMS cases. Reference TAs are listed in section D of this regulation and are not authorized for use by the Air Force activities. These TAs are not stocked or issued by AFPDC.

BY ORDER OF THE SECRETARY OF THE AIR FORCE

JOHN M. NOWAK, Lt General USAF
DCS/Logistics
